

Rollout Services

Our services range from rolling out office IT equipment through to critical datacentre rollout's, we offer desktop builds, software installation, pre-configured build, rack, stack and provide onsite support for Datacentre server, storage, and network equipment.

We are preferred partners to IBM, HP, Fujitsu, Dell, EMC and Cisco.

As part of this service, Technimove also offers a temporary pop-up hub for clients to work from – for ad-hoc projects. And for additional peace of mind, Technimove offers full insurance for the equipment that we roll out as part of our safe IT storage processes.

Service Overview
