

IT Asset Disposal Services

One of only 44 companies globally to hold the rigorous ADISA accreditation, Technimoves recycling and disposal services are of the highest security standard, also boasting a purpose-built state of the art recycling facility in the UK. Regularly carrying out disposal projects for government organizations, Technimove only utilize dedicated engineers.

By providing a full end-to-end disposal solution, from fully uniformed staff collecting all assets in a modern GPS tracked fleet of vehicles to providing full comprehensive certification upon disposal, we cater to all IT Asset Disposal needs from a single device to entire facilities.

With an established internal logistics infrastructure, our secure recycling facility is situated in South London within touching distance of the M25. Technimove provide UK and European disposal collections, often at short notice and at competitive rates.

The Technimove Advantage

- ADISA accredited.
- ISO 9001 accredited.
- ISO 27001 accredited.
- Fully certified by the Environment Agency.
- Secure handling of equipment by DBS & SC cleared staff.
- ALL hard drives wiped to military standard.
- On-site destruction of hard drives.
- Highly secure Disposal facilities.
- Potential of being paid for recycling!

Why Secure Disposal?

- Reduce potential data leak business risks
- Give back to the community, our recycled items are donated to charities or schools.

In line with ADISA, detailed certificates are raised for every project we carry out, ensuring our clients remain complaint at all stages. All devices we collect are wiped as standard utilising industry leading Blancco software.
